

The Benefits of Rental Leasing EPOS Equipment:

Anchor Data Systems understands that, in order to remain competitive; your company needs to have the most up-to-date ICT. You can optimise your investment in technology through our Systems Rental Plan, whilst still maintaining control of your budgets.

The Systems Rental gives you the use of the technology for a pre-agreed cost and period of time, with 100% of the capital cost spread over the lease period. At the end of the contract, you have the option to extend the agreement, or simply return the equipment and take out a new agreement to fund the latest technology.

This finance lease has many operational and accounting benefits that make the whole finance process simple and easy to manage, leaving you to concentrate on other areas of your business.

Here are just some key features that will be most beneficial to your business:

■ **Maximises Budget**

Meets today's I.T. requirements with tomorrow's expenditure.

■ **Protection From Obsolescence**

You can upgrade or exchange to keep up with the latest technology.

■ **Flexible Finance**

You can benefit from leasing solutions for projects that include combined elements such as hardware, software, peripherals, installation and warranty.

■ **Reduced Costs**

Lease terms can be tailored to match typical replacement cycles, helping to promote standardisation and reduce support costs.

■ **Preserves Capital**

Leaves capital free to use in other areas of your business.

■ **Better Control**

Known payments provide an inflation hedge, easier budgeting and help to maintain control of your cash flow.

■ **Tax Advantages**

Rentals are a revenue item and generally 100% tax deductible - lower tax liability means increased profit and cash flow.
