

# Anker Cash Cassettes and Cash Drawers

User friendly. Flexible. Secure.

www.**ANCHOR**DATA.co.uk

Proven in thousands of checkouts, Anker cash drawers and cash cassettes from Torex deliver unrivalled functionality at the POS. The user-friendly, versatile, rugged and robust products meet the needs of the retail and hospitality sector, including demanding environments such as self service. They guarantee a high level of security and facilitate fast and simple removal of the cash inserts.

Anker cash cassettes come in various sizes in either metal or plastic casing, according to your needs.

F: +44 (0) 28 9035 1531**

## Euro Cash Cassette

The Euro Cash Cassette is larger than the Standard Cash Cassette, but its design follows the same principle. However, the coin and note compartments are arranged differently. It is equipped with eight coin compartments and six note compartments. There is an additional compartment for receipts, which can be accessed from the outside using the drop-in slit. This configuration can accommodate any currency.

Key benefits of the Euro Cash Cassette:

- The Euro Cash Cassette can be snap locked quickly and securely to the base plate, with easy removal by pressing the release button
- Long service life thanks to solid design and robust, durable plastic
- High-quality lock with up to 50 combinations, with safety lock available as an optional expansion
- Receipt compartment accessible from the outside for easy insertion of receipts without the need to open the cash cassette

### Lockable cash cassette offers high security

The Euro Cash Cassette is electronically opened by the POS system. The cassette is equipped with a high-quality lock that can also be opened manually using a key. The lock is shipped with 50 different lock combinations. An optional plug lock is offered for additional security. The opening status of the Euro Cash Cassette is determined and transferred to the POS system via a switch built into the base.

### Coin, note and receipt compartments

The cassette is equipped with eight coin compartments, six note compartments, a safe note compartment and a compartment for receipts. The receipt slit at the front of the Euro Cash Cassette allows cashiers to insert receipts for secure storage without having to open the Euro Cash Cassette.

### Robust plastic cassette

The Euro Cash Cassette is made of robust and durable plastic. It is built for maximum longevity. In addition, the plastic used is environmentally friendly and easy to recycle.

### Firmly mounted base plate

The Euro Cash Cassette system comprises a base and the Euro Cash Cassette. The base is firmly mounted to the POS counter and the Euro Cash Cassette can then be locked onto the base. The base contains an electronic release unit. The cashier can simply open the cash cassette and press the release button to remove the cassette. This will unlock the cassette, which can then be removed with ease.

### Compatible with all common POS systems

The Euro Cash Cassette can be used with all major POS systems. When the system is changed, all that needs to be replaced is the base.

### Optional accessories

- Additional security plug lock (2000 combinations)
- External note holder
- Coin counting insert (Inkiess)
