CHOICE OF INTERFACES

SPECIFICATION FOR THE SRP-275 IMPACT PRINTER		
▶ PRINT	PRINT METHOD	9 pin serial impact dot matrix.
	PRINT DIRECTION	Bi-directional, logic seeking, friction feed.
	PRINT SPEED	5.1 lines per second at 40 column.
	PAPER SUPPLY METHOD	Drop in and print clamshell.
	DOT PITCH	0.352 mm (1/72").
	DOT WIRE DIAMETER	0.3mm (0.01").
	CHARACTERS PER LINE	Font A: 33, Font B: 40.
	PRINTING WIDTH	63.34mm (2.49").
	LINE SPACING	4.233mm (1/6").
	CHARACTER FONT	Font A, 7 x 9/Font B, 9 x 9.
CHARACTER SETS	Alphanumeric characters: 95, International characters: 48. Extended graphics: 128 x 20 pages.	
MEMORY	Print buffer: 8Kbyte NV image: 256Kbyte.	
CONTROL CODE EMULATION	ESC/POS, Star, Citizen.	
SOFTWARE	Utilities: Firmware/NV image download, Virtual memory switch managers.	
DRIVERS	Windows 95/98/ME/2000/NT4.0/XP, OPOS.	
SENSORS	Paper end, paper near end, wall mounting paper near end, cover open sensor.	
BUZZER	Buzzer alarm on print.	
▶ PAPER ROLL	WIDTH	76, 69, 57 mm ± 0.5mm, 2.99", 2.74", 2.26" ± { 0.22"}.
	THICKNESS	0.06-0.09 mm (0.002-0.003").
	DIAMETER	83mm (3.27") - Core 10 - 12.5mm.
▶ RIBBON	TYPE	SRP-275 B/R (ERC-38 cassette, Black/Red).
▶ RELIABILITY	MECHANISM	18 million lines.
	AUTO CUTTER	1 million cuts.
▶ CONNECTIVITY	INTERFACE	Serial, Parallel, USB, Ethernet.
	DKD FUNCTION	Maximum 2 cash drawers.
	EMC/SAFETY STANDARDS	CE, FCC, UL, TUV, GS.
▶ POWER	SUPPLY	AC100V ~ 240V ± 10%, DC24V Internal/External installation.
	POWER CONSUMPTION	Operating: 0.5 A (mean), 1.5A (peak) Standby: 0.3A.
▶ DIMENSIONS	SIZE	160mm (W), 239mm (D), 157mm (H).
	WEIGHT	2.6kg net, 3.4kg gross.
▶ OPTIONS	PAPER CUTTER	SRP-275A (tear bar), SRP-275C (auto-cutter).
	COLOUR	Ivory, Dark Grey.
	WALL MOUNT	Wall mount bracket.

Versatile system features for all retail solutions!

so simple, so easy!
"Drop In & Print Feature"

Versatile system features for all hospitality solutions!

Impact Printing for the Future!
The SRP-275 is ideal for both POS receipt printing and remote printing for food and drink preparation orders in hospitality applications.

Faster and Quieter!

Logic seeking, bi-directional print technology allows higher speed than previous models. The SRP-275 is quieter too, improved engineering makes impact printing almost unnoticeable in most environments.

Operational Reliability!

There is nothing more frustrating than running out of paper during a print operation. The SRP benefits from a paper near end sensor that warns of low paper in plenty of time to replace the roll. Other sensors include; paper end and printer cover open.

Easy System Integration!

With fast moving technology in IT solutions it is important to have simple integration of peripheral devices. The SRP-275 is no exception, drivers are available for Windows 95/98/ME/2000/NT4.0/XP and OPOS.

No more embarrassing paper jams in front of your customers with 'Drop In and Print'!

Drop In and Print Paper Loading!

Lift the lid, drop in the roll, close the lid and print. Nothing could be easier. No more feeding rolls through slots or rollers. No more embarrassing paper jams in front of customers.

Connectivity, No Problem!

The SRP-275 has versatile, interchangeable interfaces. Providing Serial, Parallel, USB and Ethernet options. If you want to connect to low cost cash registers or the most sophisticated EPOS system or hospitality management system just choose the interface that your system needs.

Versatile Paper Roll Sizes!

The SRP-275 can easily be made to take different width paper roll sizes saving paper costs. The full width 76 mm roll is ideal for POS receipts, especially when used to provide promotional coupons and vouchers. For other uses like back of house information printing the 69mm, or 57 mm roll may be more than adequate.

The SRP-275 is available in either Ivory or Dark Grey in Serial, Parallel, Ethernet or USB!

Make full use of colour and graphics with the SRP-275 Impact Printer!

Customising your Receipt!

By utilising the static memory of the SRP-275 you can provide unique identity to your receipts. Add value to the customer receipt by including a voucher or money off coupon and get your customer to come back to your store, bar or restaurant.

Print Alarm Buzzer!

Because of the resilience of the SRP-270 printers it is ideally suited to usage in food and beverage preparation areas. In fact, anywhere that information needs to be passed to a remote location. These remote locations are quite often noisy places so the SRP-275 is fitted with a print alarm buzzer (program option) as standard equipment.

Software Utilities!

The SRP-275 has the advantage of flash ROM based on board software. This means that any new features can be simply downloaded to the printer from a PC using the firmware download utility. Also available is the Store Maker logo download utility allowing updates of logos and coupons.

Don't Forget Colour!

As you know colour plays an important part in advertising, not only this but colour is also important when you want to bring attention to a particular item on a list, as on a restaurant table order for instance. By using a two colour ribbon and reverse print you make any part of the text really stand out.
