

- Instant Transaction Review

- Fast, powerful and adaptive

- Customer Account Screen

- Fast, powerful and adaptive to any environment or situation whether it be Retail or Hospitality.

Sentinel Touch Screen Software

Sentinel software is a powerful, yet user friendly point-of-sale application for use in Hospitality and Retail sectors. The product supports the use of keyboard, mouse and touch screen facilities.

Easy to set-up and customise for even the most difficult of business requirements. Sentinel software contains many features and tools to help maximise your business sales and EPOS hardware investment.

Sentinel software works as a stand-alone application or can be fully networked offering a complete EPOS solution in a single or multi-terminal environment.

Sentinel software is built on an open architecture allowing it to seamlessly integrate or compliment existing MIS, Stock Control, or Financial systems

Data Transfer

All the data within Sentinel Software is held within native Foxpro Tables. This allows the data to be exported/imported easily from other Foxpro Tables or CSV files, Excel Spreadsheets etc.
